ABOUT *Us*

Shreyal Lab industries

is a distinguished partner to supply of HPLC , GC , LCMS Columns and Consumables for Analytical Industry basically in Chromatography .

Our Core ideology lies in delivering Specialized Analytical Chemistry services to Pharmaceuticals

Core Values

- ☑ Customer Satisfaction as Top Priority
- ☑ Emphasis on Quality and Speed of Execution
- ☑ Adherence to Transparency and Integrity

Our Mission

Our Mission at Shreyal lab industries to provide cost effective solutions for Pharmaceutical Analytical Separation, Biotech Entities etc.

Our Vision

Our Vision is to become a leading partner for providing Chromatography Solutions.

HPLC , GC VIAL & CAP SEPTA

**0.5ML IMPURITY VIAL
WITH INNER PUSH AND CAP**

**2ML AMBER GLASS SCREW
NECK VIAL WITH PATCH**

**2ML AMBER GLASS CRIMP
NECK VIAL WITH PATCH**

**15ML & 20ML STORAGE VIAL
WITH INNER PUSH AND CAP**

**20MM ALUMINIUM CRIMP
CAP SEPTA WHITE & WHITE.**

**20MM ALUMINIUM CRIMP
CAP SEPTA WHITE & BEIGE.**

**11MM ALUMINIUM CRIMP
CAP SEPTA WHITE & RED.**

**11MM ALUMINIUM CRIMP
CAP SEPTA WHITE & RED.**

**9MM BLUE SCREW NON
BONDED NON-SLIT CAP SEPTA**

**9MM BLUE SCREW BONDED
PRE-SLIT CAP SEPTA.**

**9MM BLUE SCREW
NON BONDED PRE-SLIT.**

**9MM BLUE SCREW BONDED
NON SLIT CAP SEPTA.**

CUSTOM SERVICES

We Serve R&D and Analytical Industries for synthesis & New method Development support through our partner Labs I2P, at Ahmedabad they offer expertise in Chiral and Achiral impurities separation, as well as isolation and purification projects. Our state-of-the-art facility is equipped with instruments such as LCMS/MS, HPLCs, Flash systems, Preparative HPLCs, and DAC Columns for the purification and structural characterization of compounds.

Additionally, we provide TGA, IR, 1D, 2DNMR, and various Nuclei NMR techniques for comprehensive characterization.

We are dedicated to providing Custom/Contract purification services, utilizing scale-up facilities including preparative HPIC and DAC columns. Our services extend to the purification of intermediates, APIs, finished products, racemic mixtures, and chiral compounds, addressing quantities ranging from milligrams to kilograms.

OTHER PRODUCTS

SAPPHIRUS

- Ultra high purity silica with completely spherical, totally porous particle.
- Well controlled narrow particle size distribution.
- Minimal silanol activity due to new proprietary end capping technology.

ENDURUS

- Ultra pure Purity Silica >99.99%
- Superior Pressure Strength & Less back pressure
- Optimized Capacity & Efficiency

QUALITAS

- Sharp peak shape for good method sensitivity.
- pH stable from 1.5 to 10.0 for over 1,000 hours.
- Excellent batch to batch reproducibility

CA

- Guaranteed Quality and Performance
- Wide Variety Phases and Dimensions
- Ultra inert and ultra low bleed

M S TECHNOLOGIES, IS AN AUTHORISED DEALER OF HPLC, GC COLUMNS OF FORCE SCIENTIFIC MAKE WHICH INCLUDES BRANDS LIKE - ENDURUS, SAPPHIRUS, RUBITAS, QUALITAS, CA, WAX, ETC. ALSO DEAL IN FLASH COLUMNS, CARTRIDGES, PREP COLUMNS ETC.
